Absar Ahmed

Junior Django Developer
Faisalabad, Punjab, Pakistan

Summary

Started to code at my Matric Level, where after learning Python turtle
and other procedural concepts of programming, I jumped to Basic
language to have a high-level grip on Coding bases. Later in C and
now in C++, I developed my Logics and Object Oriented Concepts
that gave me an extra edge in understanding Python libraries'
working and their use. Before at my Inter level, I learned Libraries of
Python that deal with data. And now, My C++ OOP Concepts and
Python practices are strong support for my programming learning
and coding.

Experience

Guts Academy
Computer Science Tutor
November 2021 - Present (3 years 9 months)
Faisalabad, Punjab, Pakistan
